EXPENDITURE EXPLANATION

The proposed legislation may result in an increase in state general fund expenditures if a defendant is convicted for failure to register for a sex offender driver’s license by possessing either an altered sex offender driver’s license, or possessing a counterfeit driver’s license. The exact fiscal impact of the passage of this legislation is indeterminable, since it creates penalties for failure to register as a result of possessing an altered sex offender driver’s license or possessing a counterfeit driver’s license and it is not known how many people will be convicted of these crimes. However, any offender sentenced to the custody of the Department of Public Safety and Corrections increases expenditures by \$55.78 per day per offender in state facilities since this bill mentions hard labor.

For illustrative purposes, each person that is convicted of these crimes for the first time and serves the minimum penalty of 2 years at a state facility would increase expenditures by \$40,719 (1 offender x \$55.78 per day x 730 days). Upon second or subsequent conviction, the offender, who serves the minimum penalty of 5 years at a state facility, would increase expenditures by \$101,799 (1 offender x \$55.78 per day x 1,825 days).

According to DOC, in 2010 there were 15 admissions for failure to register, notify, or pay the annual fee (\$60) for sex offender with an average sentence of 2.97 years and 1 release with a time served of 0.7 years. There are currently 9 offenders in custody serving an average sentence of 3.28 years. NOTE: Of the 15 offenders admitted, 6 had more serious offenses and are not counted under failure to register, notify, or pay the annual fee for sex offender in the total population count.

REVENUE EXPLANATION

There is no anticipated direct material effect on state revenues as a result of this measure. However, any revenue generated through the imposition of fines as a result of conviction would accrue to local government entities.
